

Katie Richardson
VP/Administrator and Chief Long Term Care Officer

September 21, 2022

Dear Resident and Resident Representative:

Bergen New Bridge Medical Center remains committed to updating our residents and representatives regularly. In the last 24 hours, we have performed proactive testing for all the residents on one unit due to two recent positive residents in that area. This proactive testing resulted in eleven positive results. All residents are asymptomatic and have been placed on proper isolation precautions. Further testing will be performed as required. Our COVID-19 protocols and interventions remain in place. Should your loved one be on this particular unit, you will or already received notification.

Please do not hesitate to contact me with any questions at 201-967-4013 or via email krichardson@newbridgehealth.org. I continue to encourage all of you to remain safe and healthy, maintain proper hand hygiene and good infection control practices.

Sincerely,

Kathryn Richardson, LNHA
Chief Long Term Care Officer
