

Katie Richardson  
*VP/Administrator and Chief Long Term Care Officer*

May 27, 2022

Dear Resident and Resident Representative:

Bergen New Bridge Medical Center remains committed to updating our residents and representatives regularly. In the last 24 hours, there has been one resident and one staff who have tested positive for COVID-19. COVID-19 precautions are in place and further testing will be performed as required. The resident has been appropriately isolated. The staff member will not return until appropriately cleared by a physician. Testing of close contacts has been initiated.

Please do not hesitate to contact me with any questions at 201-967-4013 or via email [krichardson@newbridgehealth.org](mailto:krichardson@newbridgehealth.org). I continue to encourage all of you to remain safe and healthy, maintain proper hand hygiene and good infection control practices. If you need a COVID-19 vaccine or booster vaccine, please reach out and I can guide you on how to register to come onsite to our vaccination center.

Sincerely,

Kathryn Richardson, LNHA  
Chief Long Term Care Officer
